

## Presenting the new sign for women. HHS Women's Wellness and Cancer Clinic.

### A sign that women are special

Women are different, and their health issues need different attention. We at Hinduja Healthcare Surgical (Khar) understand this difference. That's why we've created the Women's Multispecialty Clinic, a space where women are understood, advised, directed, and treated with delicate care.

From a Maternity Ward to a Breast Clinic, this comprehensive multispecialty centre answers every medical question and need a woman may have from adolescence to her post-menopausal stage. The next time your grandmother, mother, sister, wife, daughter or aunt needs medical attention, bring her to the place meant just for her.

**The Hinduja Healthcare Surgical Women's Wellness and Cancer Clinic**

### Why is the HHS Women's Wellness your one stop clinic?

- Care, concern and expertise under one roof. Interdisciplinary, integrated approach with renowned senior consultants across specialties.
- Gynaecology, Uro-gynaecology, Endocrinology & Metabolic Disorders, Breast Disease Management, Cosmetic & Weight Loss Surgery, as well as Cancer Prevention & Care.
- Includes Adolescent Clinic, handling of Gynaecological problems during reproductive years, Cancer Screening and Menopausal Clinic.
- Comprehensive Diagnostic and Laboratory facilities including first-of-its-kind Vacuum Assisted Biopsy Device to treat small lesions in the Out-patient Department itself, without necessitating surgery.
- Special focus on Cancer Care and Management.
- Elaborate Inpatient facilities and state-of-the-art Surgical Suites.
- An exclusive clinic with a dedicated all-woman support team to make you comfortable.
